HARRIMAN DIES AT COUNTRY HOME

After Long Siege of Suffering
Great Railway Organizer
Succumbs To Disease

Arden, N. Y., Sept. 9.—Edward H. Harriman, the greatest organizer of railroads the world has ever known, met the only lasting defeat of his active life today at the hands of death. Secluded in his magnificent home on Tower Hill, surrounded by members of the family, physicians and nurses, he succumbed to intestinal disorder this afternoon, after a fight against disease which will rank for sheer grit with his remarkable struggles in the financial world.

Why Druggists Recommend
Chamberlain's Colic, Cholera
and Diarrhoea Remedy

Mr. Frank C. Hanrahan, a prominent druggist of Portsmouth, Va., says: "For the past six years I have sold and recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a great remedy and one of the best patent medicines on the market. I handle some others for the same purposes that pay me a larger profit, but this remedy is so sure to effect a cure, and my customer so certain to appreciate my recommending it to him, that I give it the preference." For sale by all druggists.

Out of the Question

"Here is something very elegant," says the salesman, piloting the lady through the display of beds. "This is our latest design in twin beds, and is one of the most popular things we sell. I would suggest that you cannot do better than to buy them."

"Twin beds?" replies the lady. "They are pretty, but—but we haven't twins!"

Apples Will Be a Very Short Crop

Benton county will have some apples this fall but the crop is going to be very light with the general quality poor. The continued hot weather has caused them to scald and they are dropping badly in many orchards. The prospect two months ago was for only 25 per cent of a crop so it can be easily seen that we are again up against a poor apple year. Orchards that have been thoroughly cultivated, and carefully sprayed, stood the drought much better than the neglected ones as a matter of course and their owners are the only ones that are going to reap the benefits of the high prices this fall. It seems very certain that the price will not be less than \$2.50 for good stock, with a fair chance for \$3 or better for anything extra nice. No apples are moving yet and there has been no orchard sales so far as we have been able to learn. The commission men will take hold of the situation a little cautiously for they had a taste of a high price market only two years ago.—Rogers Democrat.

Narrow Escape That

"A miss is as good as a mile," so the story can be told quietly but it is little short of miraculous that E. R. Spangler, big man at the Betsey, is not a corpse.

While working in the mill yesterday Mr. Spangler fell off a scaffold into a belt shaft 40 feet deep and made the dizzy descent to the bottom but instead of being killed as might have been expected he escaped with a badly bruised arm and a severe shaking up.—Aurora Argus.

Springfield citizens are having some difficulty in raising the \$15,000 bonus necessary to secure the Pythian Home.

UNCLE HAD THE DIAMONDS

"What has become of all your fine diamonds? They are still in the family, I hope?"
"Oh, yes; my uncle has them."

Mrs. Meredith is Insane From Constant Worry

Insane from constant worry over the death of her husband, Dr. Meredith, who was shot by Arthur Sanderson in the latter's home in Carthage, about three years ago, Mrs. Mamie Meredith, 30 years old, was taken to the asylum at Nevada yesterday by Deputy Sheriff A. J. Thomas of Neosho. She was declared insane by the county court of Newton county Wednesday and was brought to Joplin yesterday morning.

For several months Mrs. Meredith has been staying with her mother in Ritchey. Since the death of her husband she is said to have worried constantly and recently attempted to kill herself by shooting herself in the home of her mother. Recently she was taken in charge by the Newton county officials and Wednesday was declared insane.

From a small beginning the sale and use of Chamberlain's Cough Remedy has extended to all parts of the United States and to many foreign countries. Why? Because it has proved especially valuable for coughs and colds. For sale by all druggists.

SPREADING RAILS WRECKS TRAIN IN JOPLIN YARDS

Monett Passenger Tears Up
Track for 200 Feet

Leaving the tracks when the rails spread, after two coaches had passed over them without any serious results, a combination mail and baggage car and the tender of Frisco passenger train No 311, due into Joplin at 11:30 o'clock, yesterday morning were derailed in the railroad yards east of the depot. The tracks for a distance of nearly 200 feet were torn up, but no one was injured and but little damage resulted to the cars.

The train is operated between Joplin and Monett and consists of two passenger coaches and a combination mail and baggage car. Scheduled time allows the train to reach Joplin in sufficient time to make connections with the Joplin and Kansas City morning train, due out of here at 11:45 o'clock, and it arrived yesterday only shortly before the departure of the Kansas City train.

In backing onto the "Y" in the east limits of the yards, the rails spread a short distance beyond the "Y" and a set of trucks on each of the mail car and tender left the tracks. In leaving the rails the cars tore up the tracks for nearly 200 feet before the engineer could stop his train, although it was being operated at only a slow speed at the time.

A wrecking crew worked until 2:30 o'clock yesterday afternoon before the two cars were placed on the track and removed from the scene of the wreck. By the location of the "Y" near the place where the wreck occurred, no delay in traffic resulted to the other trains while the derailed cars were being removed and the tracks repaired.—Joplin Globe.

A Sprained Ankle

As usually treated a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may, in most cases, be effected in less than one week's time. This liniment is a most remarkable preparation, try it for a sprain or a bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by all druggists.

A hotel inspector was in the city yesterday examining the hotels and lodging houses at \$5.00 per inspection may be all right but a charge of \$5.00 for each house inspected, when but a few minutes is occupied in the inspection, is to say the least a trifle high.
